SOCIAL ENVIRONMENT AND RESPONSIBILITY

Top Grade is fully aware about its social and environmental responsibility

In May 2013 the company was one of the first Asian enterprises to sign the "Accord on Fire and Building Safety in Bangladesh". As a signatory to this landmark

agreement we are committed to the goal of a safe and sustainable Bangladeshi Ready-Made Garment ("RMG") industry and have agreed to establish a fire and safety building program.

We are also a member of the BUSINESS SOCIAL COMPLIANCE INITIATIVE (BSCI) of the Foreign Trade Association (FTA) with the goal to improve working conditions and build ethical and transparent supply chains.

In October 2013 the company joined the project "Cotton made in Africa" by the Aid by Trade Foundation for Sustainable Agriculture and Forestry. As partners in the Cotton made in Africa initiative, we are making a contribution to Africa's future. The Cotton made in Africa initiative improves living conditions for African cotton farmers and their families.

CSR: Cotton Made in Africa

Cotton plays a key role in fighting poverty and makes a major contribution to food security in many countries of sub-Saharan Africa. This project helps local people help themselves to improve the living conditions of African smallholder farmers. Top Grade International is a proud supporter through the purchasing of fair trade cotton through its channels.
